

CURRICULUM VITAE

Front end developer with 20+ years of experience, including work for Goldman Sachs, Roche, Avaloq, and BMO. Strong in front end architecture, component systems, and tooling that other teams build on. **Angular/TypeScript** specialist with sharp UX judgment and an **AI-augmented** workflow.

PERSONAL DETAILS

NAME: Paweł Szymański

LANGUAGES:

- English: fluent / C1+
- Polish: native

MOBILE: +48 693-456-487

EMAIL: pawel.szymanski.dev@gmail.com

LINKEDIN: <https://www.linkedin.com/in/pawelszymanski0>

AVAILABILITY: one week

TYPE OF EMPLOYMENT: b2b contract, long term preferred

LOCATION: 80/90/100% remote (based in Olsztyn, Poland)

SUMMARY

Delivered remotely and on-site across **finance, pharma, and healthcare** in the **USA, Canada, Switzerland, Germany, Denmark, Poland and Ireland** including validated systems. Self-motivated and reliable under pressure. Takes ownership beyond the ticket and wears whichever hat the team needs. Equally comfortable embedded in a team or owning a feature end to end.

PROFICIENCIES

- **Angular / RxJS / NgRx / Signals / NGXS / Node.js / Vue**
- **TypeScript / JavaScript**
- **HTML / CSS / SCSS / SASS**
- **Vitest / Jest / Jasmine / Storybook / Playwright**
- **UI / UX / Figma / Paper / Photoshop / Lightroom / Illustrator / InDesign / various mockup tools**
- **Websockets / API design / Nx / Web Workers / Canvas 2D / 3D / WebGL / WebGPU / Performance profiling / Core Web Vitals / Rendering pipeline / Cloud / Docker / Git**

SELECTED ACHIEVEMENTS

- Developed a cross-framework pub-sub bus with adapters enabling multiple frameworks (Angular, Backbone, Ember, JS native) to coexist and communicate on a single page (**DataXu**)
- Designed and maintained UI libraries — dozens of reusable, accessible, tested components, from checkboxes to complex charts (**BMO, Let's Get Checked, SoftwareONE, self**)
- Developed an Angular + CI/CD solution for deploying Angular apps on dynamic locations (**Roche**)
- Created an HTML port of the Civ VI game map with high-performance rendering in Angular (self)
- Developed a configurable questionnaire system supporting branching and decision trees (**BMO**)
- Refactored critical systems with zero production disruption (**Roche**)
- Built and shaped architecture for several concurrent applications, guiding tech choices (**Roche**)
- Built a shared library adopted team-wide, replacing duplicate logic (**Avaloq**)
- Mentored junior developers and guided their project delivery (**Goldman Sachs**)
- Bridged BAs and front end teams — translating requirements into technical direction (**Roche**)
- Nicknamed "FedEx" for delivering critical features on time, every time (**DataXu**)
